

EyeMax 3

Integrated multi-camera with automatic PTZ control

EyeMax 3 merges the capabilities of multiple fixed cameras, a moving PTZ camera and CloseView® automatic PTZ control to provide surveillance coverage in one easy-to-install unit.

Overview

Reference Cameras

EyeMax™ Configurations can be ordered with one, two, three or four vari-focal day/night reference camera configurations.

Object Tracking

CloseView® tracking technology utilizes wide-angle reference video camera to detect and track motion and automatically directs PTZ camera to zoom into the region of interest so faces and car licenses are clearly and sharply recorded with wide area coverage.

PTZ Camera

Quick connect PTZ module for fast installations 26X or 36x Optical Zoom & 12x Digital Zoom 220 Presets, Preset Tours, Patterns and AutoPan Tours.

Video Analytics

Video Analytics is technology used to analyze video for specific data or behavior. CloseView® Video Analytics can perform counting, object recognition and tracking many objects simultaneously. The region of interest so faces and car licenses are clearly and sharply recorded with wide area coverage.

Diagnostic View from Fixed Reference Camera

PTZ Close-up via CloseView Elite
